2nd March 2023

Dear members of the ACI Family,

On this day, so dear to Rafaela Maria, I send you a greeting full of affection.

I remember the meeting we had with some of you, who represented all of you, during General Congregation XXI. As a fruit of the reflection, you expressed the desire to **"Be men and women of hope, based on endurance, patience and generosity, with a humble heart. To be capable to hope with others and for others."**

This anniversary finds you on the way to the IV International Assembly of the ACI Family, which seeks to bring to life this and other desires and commitments. United, we try to walk this path in the reality of today's world, which constantly challenges us.

A warm hug full of affection,

aci
Rosario Fernández Villarán, aci
